BOSCH DISTRIBUTION PARTNER FOR LARGE ENGINE SPARE PARTS

BOSCH
Invented for life

In its role as a distributor for Bosch, August Storm GmbH & Co. KG is able to supply Bosch's entire product range including, for example, diesel replacement parts for reliable repair work on modern and conventional diesel systems.

Especially for large engines, we can provide you with the entire range of spare parts. Benefit from our strengths and services for your advantages:

- Availability of Bosch's entire product range
- Favourable conditions
- Overhaul of all special Bosch large engine products
- Bosch-certified quality

Our range of services also includes the overhaul of injection pumps and injectors on modern test stands by qualified and motivated personnel.

Extract from our supply range as an authorised Bosch partner

We can supply conventional injection technology (injection pumps, injection nozzles) as also state-of-the-art common-rail injection systems (high-pressure pumps, injectors) from manufacturers such as:

Cummins, Deutz MWM, MAK, MAN, Mercedes, Mitsubishi, MTU, Scania, Wärtsilä

If you have any questions regarding to Bosch, please do not hesitate to contact us – it's our pleasure to help you!
